Summary

I'm Milahn Martin, a third year Software Engineering Student at Eduvos in Pretoria. I'm finishing my degree this year (2022) and will pursue a Honors degree in 2023. I love exploring new tech stacks and collaborating with other developers. I built tons of projects in my free time and can be viewed on my github - https://github.com/milahnmartin.
When im not working on projects I like playing various amount of sports like tennis, cricket and rugby and also love hiking.

My popular Projects:

Load shedding Time Compiler
- Take Load Shedding Times of players and calculate possible availible times of players based on minimum time required to play a game (this can be set by user). Tech Stack - Next.js, Typescript, Firebase, Tailwind CSS. Source Code - https://github.com/milahnmartin/eskom-time-compiler.
Android Application Book Store
- Sell and buy second hand textbooks easily by uploading or searching for textbooks needed. Search via ISBN or Module Code. Tech Stack - Java, SQLite, Android Studio. Source Code - https://github.com/milahnmartin/EduBooks-ITMDA-Android.
E-commerce Energy Drink
- Looking For Popular Energy Drinks Like Red bull and Monster ? Look no further, this site provides you with all the popular energy drinks and easy to search feature. Tech Stack - PHP, MYSQL, HTML5 , JavaScript. Source Code - https://github.com/milahnmartin/milahnmartin-iteca-ecommerce.
Gaming Statistics - Fingerprint ZA
- Looking for you favorite players gaming settings ? look no further, simply search for your favorite player and get their settings to level up your game. Log in with Firebase to upload or update your own settings. Tech Stack - Firebase, Java Script, HTML5, CSS3 , JQuery.

Experience

Junior Software Engineer
Phase Three Trading
Mar 2022 - May 2022 (3 months)

Education

Eduvos
Bachelor of Science - BSc (Hons), Information Technology
Jan 2020 - Dec 2023

Menlopark Highscool
Bachelor's degree
Jan 2015 - Dec 2019

Licenses & Certifications

sololearn CSS - Sololearn
1023-15422111

sololearn Javascript - Sololearn
15422111-1024

sololearn HTML - Sololearn
1014-15422111

sololearn JQuery - Sololearn
1082-15422111

sololearn PHP - Sololearn
1059-15422111

Skills

Object-Oriented Programming (OOP) • TypeScript • Python (Programming Language) • Object-Relational Mapping (ORM) • Cloud Computing • React.js • Tailwind CSS • SQL • NoSQL • Git
